

# Clinical workshop of biofilm related infections

Wednesday June 26<sup>th</sup>, 2024

Location: The 'Seminarrummet', at Afdeling for Klinisk Biokemi, 3.01.1.

Organizer Claus Moser

## Program

9:00 - 9:15	<b>Welcome and short introduction</b> <i>Claus Moser, Department of Clinical Microbiology, Rigshospitalet</i>
9:15 - 10:00	<b>Cystic fibrosis and the clinical biofilm revolution</b> <i>Niels Høiby, Department of Clinical Microbiology, Rigshospitalet</i>
10:00 - 10:45	<b>Chronic wounds</b> <i>Klaus Kirketerp-Møller, Department of Copenhagen Wound Healing Center, Bispebjerg Hospital</i>
10:45 - 11:15	<b>Break and coffee</b>
11:15 - 12:00	<b>Osteosynthesis and prosthesis related osteomyelitis</b> <i>Hans Gottlieb, Department of Orthopedic Surgery, Herlev Hospital</i>
12:00-13:00	<b>Lunch</b>
13:00-13:45	<b>Enteral failure and parenteral nutrition through tunneled CVC</b> <i>Palle Bekker Jeppesen, Department of Medical Gastroenterology and Hepatology, Rigshospitalet</i>
13:45 - 14:30	<b>Endocarditis and cardiac prosthesis infections</b> <i>Henning Bundgaard, Department of Cardiology, Rigshospitalet</i>
14:30 - 15:00	<b>Break and coffee</b>
15:00 - 15:45	<b>Biofilms in the laboratory of Clinical Microbiology</b> <i>Claus Moser, Department of Clinical Microbiology, Rigshospitalet</i>
15:45 - 16:00	<b>Remarks?</b>

**Aim:** To improve the understanding of the clinical everyday real life presented by specialist in the clinical syndromes selected for this workshop.

To stimulate discussions on how to cross the valley between basic science to the clinical world and opposite.

The clinicians view on, what is needed for setting up clinical testing and what is needed to have methods/treatment strategies/new treatment candidates implemented in the clinical practice.
